

25 rue du faubourg DuRoule

Dear Sir,

As you see, the parcel which I wish to get forwarded to London, is not very bulky and I hope will find place in your baggage.

I beg to enclose at the same time to ~~exhibit~~ the prospectus of an establishment which I cannot recommend too strongly. The long experience of the lady who is placed at the head of it and talents of a superior order, are more than sufficient guaranties to persons who would like to ~~know~~ deal with it. - It is an establishment, as you will perceive of a novel kind and highly desirable. Perhaps you will have the goodness to read that prospectus and at the same

time the plan of education projected by
the lady in question, and to recommend
it to your friends.

The name of Madame Fauska
Hoffman is known everywhere; her
name has appeared in the biographical
notices, English, French, German &c
~~and~~ as early as 1821. Any further
information will willingly be given
by Prince Czartoryski, 25 r. fg. Dubrouk.
She has published several works
of on education and had been ~~intrusted~~
entrusted by the government of her
country with the inspection of all
the establishments for teaching young
ladies.

If you have any commision with
Newcastle upon Tyne, then pray
tell M^r W. Hutton, residing there
that you have seen me and
remember me kindly to him -

My best compliments to
Miss Dickson and
Believe me
ever truly yours

Leonard Niedzwiecki
